

What to Do

Choose a face

Remember the colour you have chosen.

When you see your face on the page, you are the LEADER.

The LEADER reads the text in the speech bubbles.

There are extra words and questions to help you on the teacher's whiteboard. The LEADER reads these aloud.

When you see this stop sign, the LEADER reads it aloud.

You might need:

- to look at the WORD HELP on pages 22–23.

If you are the **LEADER**, follow these steps:

1 PREDICT

Think about what is on the page.

- Say to your group:
“I am looking at this page and I think it is going to be about...”
- Tell your group:
“Read the page to yourselves.”

2 CLARIFY

Talk about words and their meaning.

- Say to your group:
“Are there any words you don’t know?”
“Is there anything else on the page you didn’t understand?”
- Talk about the words and their meanings with your group.
- Read the whiteboard.

- Ask your group to find the **LET’S CHECK** word in the **WORD HELP** on pages 22–23. Ask them to read the meaning of the word aloud.

3 ASK QUESTIONS

Talk about how to find out more.

- Say to your group:
“Who has a question about what we have read?”
- Question starters are:
how..., why..., when..., where..., what..., who...
- Read the question on the whiteboard and talk about it with your group.

4 SUMMARISE

Think about who and what the story was mainly about.

When you get to page 24, you can talk to a partner or write and draw on your own.

Ollie Simmons was good at maths but Ruby Riley wasn't. Well, she didn't think she was. She sat next to Ollie and so she just copied him. This was the best way she had found to do maths. She didn't have to think at all.

I am looking at this page and I think it is going to be about... because...

Are there any words you don't know?

Let's check:
copied

Who has a question about what we have read?

What do you think was wrong about Ruby doing maths this way?

This page was

mainly about

STOP
My predictions were right/wrong because...
