

How to plant spring bulbs

Read the instructions below that tell you how to plant spring bulbs.

1. Lay gravel in the base of a 12cm pot.

2. Half fill the pot with compost.

3. Lay the bulbs on the surface of the soil.

4. Cover the bulbs with compost and water.

5. Leave the pot in a dark place until the shoots appear. You will need to keep checking the pot.

6. Bring the bulbs into the light, keep them watered and watch them grow.

In the table below, rewrite the instructions from page 9 using your own words. Make sure they are in the correct order.

1. First...	2. Next...
3. Now...	4. Then...
5. After that...	6. Finally...

Answer the question below. Then write your own question and answer using the planting instructions.
